Admiral Stansfield Turner
Director

Washington, D.C. 20505

Dear Admiral Turner:

We will be happy to work with you, as you suggest in your letter of April 13, by taking your production people through our operation here at U.S. News & World Report. Incidentally, some of your people have already had a tour through our photocomposition area, so you may want to check that out with them, too.

Meantime, what I would suggest would be that your Mr. Herbert Hetu get in touch with our John Tuohey, who is vice president in charge of our manufacturing operations. The telephone number is 333-7400.

Sincerely,

A handwritten signature in cursive script that reads "John H. Sweet".
